Visitors from Overseas Schools
Visit by Thai Academicians
The school was very privileged to host 120 Japanese students, their teachers and staff from Zama Sogo High school on 28 September 2009. This visit was made possible with the combined efforts of Tourism Malaysia and also Haji Sahariman who is the president of the Home stay program in Malaysia.

Our guests arrived in the morning and stayed until after lunch time. There was a short cultural presentation performed by our girl students and formal speeches by principals of both schools. Mr Kaga Daigaku, the principal of Zama Sogo high school, thanked the school for making this visit possible and also hoped that this visit would encourage further student exchange programs between our two schools.

The Japanese students were then divided into different groups to participate in classroom and Extra Curricular Activities which included basketball and futsal. Some students also attended singing, Art and Computer classes. The JEC was also visited by the Japanese students and were given a briefing by Ms Looli.

During lunch the Japanese students were divided into two groups so as to enable them to mix with both Saleha and HIBS students. One group had lunch in the dining hall with the SMS Saleha students while the other had lunch in the MPH with the HIBS students.
This allowed for interaction between the students and also an exchange of culture and hospitality. An exchange of gifts between the students enabled them to receive a souvenir from each country after lunch and before the students left for KL, many of photographs were taken. Some Japanese students were seen shedding tears while leaving in the bus. Though it was a short visit, some seeds were believed sown in the minds and hearts of all of us. We look forward towards more visits and cultural exchanges between our two schools.
